

Discrimination against Aboriginals and Torres Strait Islanders can happen because of someone's sexuality, HIV status, drug use, background or identity.

We are who we are or whoever we may choose to be. Our family is Aboriginal and Torres Strait Islander and it is gay, lesbian, sistergirl and transgender.

We come from the same places you come from.

But wherever we come from, or whoever we are, we are proud.

We're your family too!

too!

we're family
